

6 plotting libraries in streamlit

[plotly](#), [pandas](#), [bokeh](#), [altair](#), [seaborn](#)

[discdiver](#) 1 April 7, 2021, 11:19pm

There are so many Python plotting libraries. I made a Streamlit app that shows the plots and code for 6 Python plotting libraries: Bokeh, Altair, Matplotlib, seaborn, Plotly (express), and pandas plotting with matplotlib. There are a number of plot types you can see the output and code for.

<https://share.streamlit.io/discdiver/data-viz-streamlit/main/app.py>

Check it out and please let me know if you have suggestions to make it better. 😊
